

Levelling plate

For levelling the seat surface in wheelchairs

Levelling plate

If the seat surface in wheelchairs needs to be levelled, this is available as an accessory. This is a stable sheet which can be placed in the cover on the underside of the cushion. It is easy to clean and take care of.

Facts

Materials: Cell Polyethylene

Height: 2.5 cm (bevelled edges)

Warranty: 2 years

Fire: Complies with ISO 7176-16

Can be used with all Helab seat cushions apart from Tremix which already has this function.
