

Curera® Contur EX Seat Cushion

Comfortable seat cushion

Curera® Contur EX is a comfortable and pressure redistribution seat cushion made from an anatomically moulded base of polyurethane foam with memory foam in the seat well.

The anatomical design distributes the pressure away from the underside of the thighs, provides a good and stable sitting position, good pressure redistribution for the seat bones and reduced risk of shearing. Recesses for lumbar supports, rounded rear edge and leg divider also give it good stability and fit in a wheelchair. Curera® Contur EX provides a good level of sitting comfort and is suitable for people sitting for both longer and shorter periods. Curera® Contur EX may be used for wheelchairs with rigid seat base or adjustable seat base.

Curera® Contur EX is easy to clean. The cushion comes with a durable cover in grey polyester plush with high friction. None of Curera® seat cushions and covers contains any bromide-based flame retardants or latex.

Curera® Contur EX Seat Cushion with Standard Cover

Always read the instructions for use prior to use.

AVAILABLE COVERS

Standard Cover

Flexible and elastic material on the top side that prevents the user sliding with an anti-slip underside.

Hygienic Cover

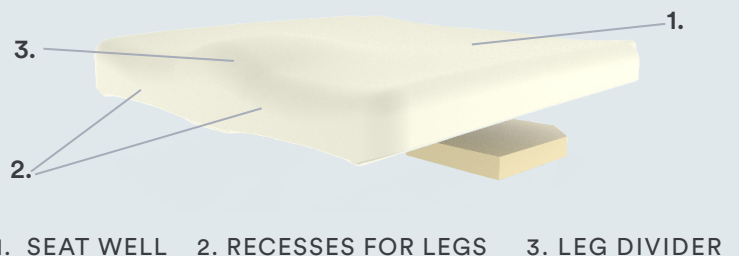

A liquid proof and vapour permeable cover that is elastic and flexible with an anti-slip underside.

Hood cover

Made in 2-way stretch. The fabric has good flexibility and friction ability. Elastic on all sides.
