

# Curera<sup>®</sup> Contur Seat Cushion

Comfortable and popular seat cushion

Curera<sup>®</sup> Contur Seat Cushion with Standard Cover

# Curera® Contur Seat Cushion

Curera® Contur is a comfortable and pressure redistribution seat cushion made from an anatomically moulded base of polyurethane foam with memory foam in the seat well

The anatomical design distributes the pressure away from the underside of the thighs, provides a good and stable sitting position, good pressure redistribution for the seat bones and reduced risk of shearing. Recesses for lumbar supports, rounded rear edge and leg divider also give it good stability and fit in a wheelchair. Contur provides a good level of sitting comfort and is suitable for people sitting for both longer and shorter periods.

Curera® Contur may be used for wheelchairs with rigid seat base or adjustable seat base.

Contur has a waterproof surface that prevents liquids from passing through and is easy to clean. The cushion comes with a durable cover in grey polyester plush with high friction. None of Curera® seat cushions and covers contains any bromide-based flame retardants or latex.

Always read the instructions for use prior to use.
