

E-learning launch

2025-09-01

Care of Sweden launches new e-learning platform – bringing all training resources together in one place.

Care of Sweden is proud to announce the launch of its new e-learning platform, Care of Sweden Academy, available from September 1st. The platform provides healthcare professionals and partners worldwide with easy access to the company’s educational resources, anytime and anywhere.

Background

Knowledge and expertise are at the core of Care of Sweden’s mission to prevent pressure injuries and support better care outcomes. With the launch of the Academy, the company takes an important step in making its knowledge more accessible in a structured and digital format. By gathering all training materials in one place, Care of Sweden strengthens its role as a long-term partner to healthcare providers and distributors in Sweden and internationally.

“Our vision is to make knowledge accessible in a way that truly supports healthcare professionals in their daily work. By digitalising our trainings, we can reach more people, offer flexible learning opportunities, and ultimately contribute to better patient care.”

Izabella Lundgren, Product & Application Trainer at Care of Sweden.

“Our vision is to make knowledge accessible in a way that truly supports healthcare professionals in their daily work.”

- Izabella Lundgren, Product & Application Trainer.

Benefit of the Academy

Greater accessibility:

- More healthcare professionals can take part in training and deepen their knowledge at their own pace.

Stronger partnership:

- By providing digital resources, Care of Sweden supports distributors and partners in building expertise in their local markets.

Improved quality:

- Sharing knowledge more widely contributes to better care and outcomes for patients globally.

Conclusion

The launch of the Academy demonstrates Care of Sweden’s commitment to developing innovative solutions that meet the evolving needs of healthcare. By combining expertise with digital accessibility, the company continues to drive knowledge-sharing that makes a real difference for patients and professionals worldwide.
