

Curera® Consept Latus Seat Cushion

Seat cushion for heavy users

Curera® Consept Latus is a comfortable and pressure redistribution seat cushion intended for heavy users, made from an anatomically moulded base of polyurethane foam with memory foam filling on the top side. Fitted with reinforced bottom plate, side supports, leg divider and seat well, the cushion provides a stable seat for people who need extra support.

The anatomical and adapted design distributes the pressure away from the underside of the thighs, provides a good sitting position, good pressure redistribution for the seat bones and caudal vertebra and reduced risk of shearing. Recesses for lumbar supports and rounded rear edge also give it good stability and fit in a wheelchair. It is a comfortable seat cushion and is suitable for people sitting for both longer and shorter periods.

Consept Latus has a waterproof surface that prevents liquids from passing through and is easy to clean. The cushion comes with a durable cover in grey polyester plush with high friction. None of Curera® seat cushions and covers contains any bromide-based flame retardants or latex.

Curera® Consept Latus with Standard Cover

AVAILABLE COVERS

Standard Cover

Flexible and elastic material on the top side that prevents the user sliding with an anti-slip underside.

Hygienic Cover

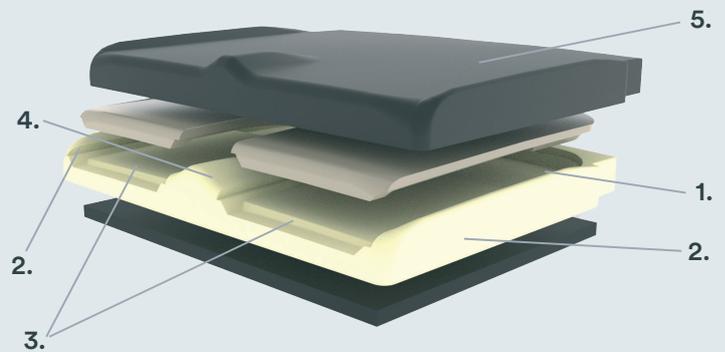

A liquid proof and vapour permeable cover that is elastic and flexible with an anti-slip underside.

Deluxe Cover

Plush polyester on the outside and a self-ventilating material inside. Elastic and flexible material on the top side with an anti-slip underside.

Onyx Cover

Material made of 4-way stretch on the top side and an anti-slip underside. Comes with handles on the underside. Available with a mesh layer for a better microclimate and a generally higher comfort.

- 1. SEAT WELL
